The present index supplements the General Index to the first 120 Volumes of the JOURNAL OF THE FRANKLIN INSTITUTE (including the *Franklin Journal*), which was published by the Institute in 1890; and the supplementary index of Volumes 121 to 140, issued in 1896. The arrangement and system of volume numeration are the same.

It is the present purpose of the Committee on Publications, under whose direction this volume has been prepared and issued, to publish a similar index at the close of each succeeding decennial period.

INDEX

TO THE

Journal of the Franklin Institute

FOR THE

TWENTY VOLUMES

FROM

1906 to 1915

(SUPPLEMENTING THE INDEX TO THE 160 VOLUMES, FROM
1826 TO 1905)

COMPILED BY THE SECRETARY OF THE INSTITUTE, UNDER THE
DIRECTION OF THE COMMITTEE ON PUBLICATIONS

In this, the third decennial index, it has been decided to abandon the plan followed in the earlier volumes of making separate alphabetical lists of the subjects and the authors. These have been combined in one alphabet and, where desirable, a title entry has also been added.

INDEX

TO THE

Journal of the Franklin Institute

FOR THE

TWENTY VOLUMES

FROM

1916 to 1925

(SUPPLEMENTING THE INDEX TO THE 180 VOLUMES, FROM
1826 TO 1915)

COMPILED BY THE SECRETARY OF THE INSTITUTE, UNDER THE
DIRECTION OF THE COMMITTEE ON PUBLICATIONS

This volume follows the arrangement adopted in the previous one, namely, the inclusion of subjects, authors and, where useful, titles in one alphabet. It has been deemed advisable to discontinue the use of Roman volume numbers in the references and to substitute boldface Arabic figures. It is hoped that this change will also be found convenient.

1926 to 1935

Compiled under the direction of
the Committee on Publications

(SUPPLEMENTING THE INDEXES TO THE 200 VOLUMES,
FROM 1826 TO 1925)

SUBJECT INDEX

This subject index covers all original source material published in this JOURNAL from 1946 through 1955. It includes: all technical and general interest papers; original "Notes" from the Bartol and Biochemical Research Foundations, The Franklin Institute Laboratories and the Museum; Medal Day Proceedings; and all official records of The Franklin Institute, including the names of Medalists. It omits Book Reviews, Current Topics, National Bureau of Standards Notes and Nuclear Energy News items—all of which may be found in the semi-annual indices published in June and December each year. Each paper is indexed under several headings; the various "Notes" are listed only once, under the heading of the sponsoring organization. Cross references have been omitted, except to refer the reader to the lists of "Notes." Boldface numbers are volume numbers; lightface, page numbers.
